Monday 15th November 2021, 5-6pm (GMT) on Microsoft Teams

Sophie-Grace Chappell is Professor of Philosophy at the Open University and Honorary Research Fellow in the School of Philosophical, Anthropological, and Film Studies at St Andrews University.

Abstract: I consider the prospects for conceptual (re-)engineering in the area of our gender-concepts. I propose a number of possible analogies, some less and some more serious. My outlook on these possibilities is, broadly, optimistic.
